BOOK SYNOPSIS

He's marrying his best friend for money and revenge... Dayton Royce's grandfather seems determined to rule Dayton's life even from the grave. The only way Dayton can get his hands on the inheritance that rightfully belongs to him is to marry before his twenty-fifth birthday. If he doesn't, he'll lose it all. But Dayton's never been good at following orders, and he has no intention of bowing to his grandfather's dictates. Dayton's found a way to get what's his and give his grandfather the middle finger one last time: he's going to marry his best friend, Alex, instead of one of the girls his grandfather wanted him to marry. It should be the perfect revenge. What it turns out to be is complicated, because Dayton never has known how to quit while he's ahead...
