BOOK SYNOPSIS

The New York Times bestselling author of The Lost Fleet series returns to the epic space saga of a rebellion against a totalitarian regime, and the determination of two people to create a better future in the farthest reaches of the colonized galaxy... The Syndicate Worlds continues to splinter as more star systems pledge allegiance to President Gwen Icenis and General Artur Drakons new government at Midway. But the rebels fleeing the toxic legacy of Syndicate rule have difficulty trusting one another and believing their new leaders promises of freedom from tyranny. Before Icenis and Drakon can put their house in order, they must deal with another threat. An enigma warship has appeared and vanished near a Syndic colony. If the aliens are capable of jumping into other human-occupied star systems, then billions of people could be vulnerable to a hostile invasion fleet anywhere it chooses to strike. But an even greater liability lies with Icenis and Drakon as a once-trusted adviser turned saboteur plans revenge...
